**Special announcement!**

Kresge Hearing Research Lab and Vanderbilt University/ Bill Wilkerson Center are pleased to offer a joint program in continuing education. Vanderbilt University offers courses in Pediatric and Adult Amplification. For more information on Vanderbilt's courses, please contact Kate Carney, course coordinator, at [kate.carney@mcmail.vanderbilt.edu](mailto:kate.carney@mcmail.vanderbilt.edu) or at (615) 936-5016.

**Kresge Continuing Education Courses for  
Audiologists and Hearing Health Care Professionals  
2003-2004**

Course Director and Speaker:

**Linda J. Hood, Ph.D.**

Guest Speakers:

**Charles Berlin, Ph.D.** (all 2004 courses )

**Judith Gravel, Ph.D.** (July 2004)

**Terry Picton, Ph.D., M.D.** (January 2004)

**Yvonne Sininger, Ph.D.** (October 2003 and 2004)

All courses provide up-to-date information about the newest developments and techniques in the evaluation and management of hearing loss. Courses include lectures, videos, reviews of applicable cochlear and neural physiology, presentation of case studies, and hands-on instruction in current techniques.

**All Courses Feature:**

- ? Test protocols and instruction in OAEs, and in click, frequency-specific, and bone conduction ABRs for infants, children and adults
- ? Auditory steady-state responses (ASSR) and other special techniques
- ? Auditory neuropathy/dys-synchrony: evaluation and management
- ? Update on hereditary hearing loss and advances in genetics
- ? Case studies discussions and interpretation of test results
- ? Optional session on OAE suppression
- ? Hands-on instruction and practice with state-of-the-art auditory test equipment

**An Advanced Workshop in Auditory Evoked Potentials and  
Otoacoustic Emissions**

October 23-25, 2003

October 14-16, 2004

Guest Speakers: Yvonne Sininger, Ph.D. UCLA, Los Angeles, CA (2003 and 2004) and Charles Berlin, Ph.D. LSUHSC (2004).

Instruction level: Intermediate/Advanced (a maximum of 18 CE hours)

**Featuring:**

- ? Advanced ABR and OAE techniques and interpretation
- ? Applications of OAEs and ABR in newborn hearing screening and follow-up
- ? ASSR, electrocochleography, middle and late latency evoked potentials

**A Practical Short Course in Auditory Evoked Potentials and  
Otoacoustic Emissions**

January 21-24, 2004

Guest Speakers: Terence W. Picton, Ph.D., M.D. Baycrest Centre, Toronto, Canada and Charles Berlin, Ph.D. LSUHSC.

Instruction level: Introductory/Intermediate (a maximum of 25 CE hours)

**Featuring:**

- ? Cochlear and neural physiology
- ? ABR, OAE, and ASSR techniques and interpretation in patients of all ages
- ? Applications of OAEs and ABR in newborn hearing screening and follow-up
- ? Clinical applications of OAEs and ABR in patients of all ages

## **Identification and Management of Hearing Impaired Infants and Children: ABR, OAEs, Computer-Assisted Behavioral Testing, and Management Issues**

July 14-17, 2004

Guest Speakers: **Judith S. Gravel, Ph.D.** Hunter College, New York, NY and **Charles Berlin, Ph.D.** LSUHSC.

Instructional level: Introductory/Intermediate (a maximum of 25 CE hours)

### **Featuring:**

- ? ABR, OAE, and ASSR techniques and interpretation in infants and children
- ? Applications of OAEs and ABR in newborn hearing screening and follow-up
- ? Behavioral test techniques in pediatric population
- ? Educational strategies and family management, including parent panel presentation
- ? Issues in management with hearing aids and cochlear implants
- ? Hereditary hearing loss: characteristics of genetic hearing loss and associated syndromes

### **AAA and ASHA CEUs available!**

Kresge Hearing Research Laboratory is approved by the American Academy of Audiology to offer AAA CEUs for these activities. The courses are worth either a maximum of 18 or 25 CEUs. AAA approval does not imply endorsement of course content, specific products or clinical procedures.

Kresge Hearing Research Laboratory is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. These programs are worth a maximum of either 18 or 25 CEUs. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.
